BLACKS, CRIME, AND CRIMINAL JUSTICE:

AN INTRODUCTORY BIBLIOGRAPHY

by

PREFACE

The problems of the poor and the Black respecting the criminal justice system in the United States are not entirely dissimilar. As some of the sources in this bibliography will attest to, the Black and the poor generally receive inferior legal assistance, are sentenced more frequently and receive harsher treatment while incarcerated than do those with the money to negotiate the system successfully.

Not only does this situation remain true today, but as some of the historical statements included herein demonstrate, there has been little change in the assymmetrical distribution of justice administration. What this record tells us then, is that for all intents and purposes, there is at least a dual standard of justice in these United States. To speak of altering this situation is to speak directly to an alteration of the distribution of power so that democracy is allowed to come into existence and freedom is once again a right instead of the privilege it has become.

ADDITIONAL MATERIALS

An excellent source of additional materials are the daily newspapers Black and White. In the first instance I refer to papers like the Amsterdam News published in New York and the Chicago Daily Defender published in Chicago. In the latter instance I have in mind papers like the New York Times and the Washington Post.
